Summer Undergraduate Research Fellowship in the Internet of Things (SURF-IoT)

Summer 2017

Application Deadline:
Wednesday, May 31

Program Dates:
June 26–September 1

www.urop.uci.edu/surf-it.html
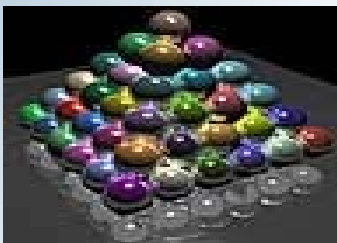

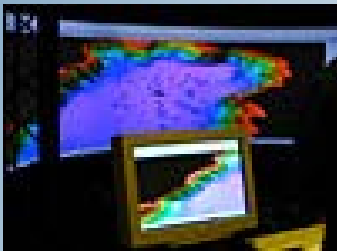

The **SURF-IoT** Program at the University of California, Irvine provides a 10-week summer research opportunity for UCI undergraduates to become fully immersed in cutting-edge research and applications related to the Internet of Things (IoT). Successful applicants will choose from among several projects and will work under the guidance of faculty associated with Calit2 – the California Institute for Telecommunications and Information Technology – and use advanced equipment and facilities.

Benefits Include:
- $2,000 stipend
- Lunchtime seminars
- Faculty mentoring
- Professional development
- Publicity
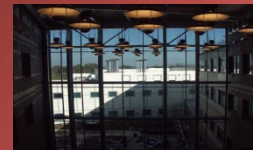

Who Should Apply?
Applicants should be high-achieving UCI undergraduates, in any discipline, with a strong drive to pursue IoT research and applications. Preference will be given to students who will be continuing at UCI in the fall, have junior or senior standing, and have previously completed at least one quarter of research under the guidance of a faculty mentor prior to the start of the program.
